RE: KBT Construction

I have personally known Keith Timmons of KBT Construction for many years. Keith has been involved with several projects here at St. Joseph's Catholic Church most recently being the restoration of our entrance doors at both the Main Church and Cody Enrichment Center. The doors are exterior wood and were in desperate need of refinishing. Keith and his team did a fantastic job of bringing the doors back to the original state. In addition to this most recent project Keith was the general contractor for the Divine Mercy House which is a home dedicated to crisis pregnancies. Keith worked very hard to help us build this house on our campus in an efficient and cost-effective manner. He has also completed extensive stucco repair work at the Main Church and consulted on several other projects here on campus. I find Keith to be knowledgeable in his trade and easy to work with.

God bless,

Patrick Kinnare  
Parish Administrator  
St. Joseph Catholic Church
