**RE: KBT CONTRACTING
LETTER OF RECOMMENDATION**

To Whom It May Concern:

Stellar has worked with KBT Contracting on several projects over the last six years. KBT has executed well on each endeavor and has exceeded expectations. Keith Timmons runs his company in parallel with Stellar's corporate principles (Integrity, Commitment, Quality, Customer Satisfaction, and Creativity) and that alone makes KBT a cut above the competition and highly recommended.

KBT has provided these principles under significantly challenging projects as well. In particular, KBT performed two tough projects at Jacksonville University. These construction projects were a preschool called Wilma's Little People's School (WLPS), and a custom President's House. The challenges included a limited budget of slightly less than \$1.5 million, a critical schedule with both projects running simultaneously and opening for the fall semester, and meeting the high demands of Stellar and the end user.

In spite of these constraints, KBT Contracting performed flawlessly. The projects were completed on time, within budget, and to the end user's complete satisfaction. Stellar has been successful by utilizing quality contractors and KBT Contracting is definitely at the top of our list.

I highly recommend KBT Contracting for commercial and high-end residential projects and know they will meet and likely exceed your expectations.

If you have any questions or need additional information, please feel free to call me.

Sincerely yours,

STELLAR
